# Future property acquisition strategies: Awareness of environmental and acquisition track record

## Changes in number & quality of property sales information

Both the number & quality of property sales information have been improving backed by solid acquisition track record

- The number of properties offered has been on the rise since restart of property acquisition (expected to exceed 216, the highest number ever achieved in 5th period ended Oct. 2007)
- The number of properties under consideration to acquire is also on the rise (in the 11th period, the number was 48 (27.3% of all property sales information) and increased 12.6% from the previous period)
- The number of packaged properties (portfolios) information has been increasing since the beginning of 2010 (A total of 9 portfolios comprising 75 buildings, including 5 portfolios comprising 51 buildings offered by a private fund)
- In some cases, the properties offered in the past are reoffered with lower prices

# Management of existing properties: Environment friendly management and leveraging scale merit

## Actions for energy-saving

We plan to upgrade air conditioning systems and lightings, which account for 80% of total energy consumption

### Upgrade air-conditioning systems

Upgrade air-conditioners, install ventilation fans with heat exchangers and upgrade ventilation systems

### Upgrade lighting equipment

Install higher-efficiency lightings with inverters and high-intensity evacuation signs, install LED lightings for common areas, etc.

### Install motion sensors etc.

Install motion sensors to save energies while people are away from office, higher-efficiency transformers, and use inverters for controlling fans

**Energy saving by 1% every year and more than 5% in 5 years expected ※**

※ We are categorized as specified business entity under the revised Energy Saving Act (because of use crude oil equivalent more than 1,500kl/year). The act sets a goal to reduce the amount of energy use by 1% every year. Emission reduction commitments under the Tokyo environment code covers only the large size building that use oil more than 1,500kl/year, however none of our buildings is this large, and is not required to reduce emission at this point.

## Reduction of construction costs through package bid

9th period	2	¥16 M	11.3%
10th period	3	¥6 M	7.6%
11th period	2	¥10 M	23.8%
12th period	5	¥63 M	16.1%

**Bargaining power backed the advantage of scale**

Significant and continued reductions of construction costs

## 5-year energy saving action plan

**Our target of 5% reduction is to be achieved by the end of the 19th period (FY2014)**

## Evaluation of our actions: Adoption by "Construction Saving Energy Program 2010"

A-22 KDX Shin-Yokohama Building

■ The upgrade of air-conditioning system planned during the 12th period (ending April 2011) is expected to reduce the energy consumption of the property by **13.8%**

■ This repair of KDX Shin-Yokohama Building is under "Construction Saving Energy Program 2010", which is Ministry of Land, Infrastructure, Transport and Tourism (eligible to receive subsidies)

■ The fund is expected to receive a subsidy of ¥26.2M which is nearly one-third of the total construction costs of ¥80M (in March 2011)

## **Financial Strategy**

# Stable financial management: Conservative LTV and diversified maturities

## Changes in LTV

Note: LTV = total debt / Total assets

We aim to increase our revenue through property acquisition by diversifying our financing methods

- Investment corporation bond
- Public offering
- Asset backed loan

## Diversification of debt maturities (as of December 13, 2010)

Note1: Shows debt amounts that mature in each period (rounded to the second decimal place)

Note2: 1H is from April 1 to September 30, 2H is from October 1 to March 31 of the following year and are not identical with the fiscal period of the Investment Corporation (e.g. 2010, 1H is from April 1, 2010 to September 30, 2010)

Note3: The borrowings of refinanced in 2010 1H or later (red and shaded boxes, refinance by short-term borrowings are red and yellow-shaded boxes) are total repayment (excluding dividend repayment amount based on the agreement)

# Stable financial management : Improvement in lending condition and diversification of fund sources

## New borrowings in 2010

	No. of lenders	Amount of borrowing	Period	Payment method	Use of
Feb. 2010	4 lenders	¥7.0B	Up to 5years (3years, 5years)	Amortization (5% per year)*	Acquisition of KDX Shinjuku Building
Nov. & Dec. 2010	6 lenders	¥9.5B	Up to 7years (3years, 5years, 7years)	Full on maturity	Acquisition of 3 properties

\*3year borrowings: principal repayment in full on maturity

# Historical appraisal value and unrealized gain/loss of office building

## Historical variation for appraisal value of office

Note: Changes in appraisal value as of end of each period compared with the previous period. The appraisal value for the previous period which was acquired during the each period will be calculated based on the appraisal value at the time of acquisition.

## Historical appraisal profit/loss ratio and amount of office

Note: Appraisal profit/loss amount subtracts the book value from appraisal value as of the end of each period. Appraisal profit/loss ratio divides the appraisal profit/loss amount by the book value as of the end of each period.

Items of appraisal valuation	⇒End of 8th period (2009/4)	⇒End of 9th period (2009/10)	⇒End of 10th period (2010/4)	⇒End of 11th period (2010/10)
Change in rent (based on mid/long-term appraisal value)	-4.3%	-4.4%	-2.6%	-1.5%
Change in cap rates (average)	0.2% (5.0%→5.2%)	0.1% (5.2%→5.3%)	0.0% (5.3%→5.3%)	0.0% (5.3%→5.3%)

Note: Change in mid/long-term rent and cap rate (difference with value at the end of the previous period) of office buildings end of each period. Based on acquisition price.

The mid/long-term rent and cap rate of buildings acquired in the each period are considered the value at the end of the previous period and calculated.

	⇒End of 8th period (2009/4)	⇒End of 9th period (2009/10)	⇒End of 10th period (2010/4)	⇒End of 11th period (2010/10)

# Future acquisition strategy: Secure properties at an early stage in the future by *tokumei-kumiai* investment

Revision of Regulations in August 2010

- Newly established provision for warehousing fund (pre-acquisition) (Memorandum of Understanding)
  - Flexibly obtaining opportunities to acquire investment properties
- Newly established standards for investment in equity in *tokumei-kumiai* (Japanese silent partnership) (Management Guidelines)
  - Secure properties while considering the balance of fund procurement
  - Diversify investment methods to secure profits of the portfolio

Standards for investment in equity in *tokumei-kumiai*

- ① Total amount invested shall be up to 10% of total assets
- ② Properties shall meet the investment criteria of KRI
- ③ Opportunity to acquire such property shall be granted to KRI when disposing the properties

Merit for KRI

- Secure properties with a small financial burden
- Secure profits after leveraging through *tokumei-kumiai* investment
- Secure future opportunities to acquire properties in advance

Accounting method for Property taxes - City planning taxes	
Changed the accounting method for Property-related taxes from 11th period	
【Content of change】	
These taxes are charged to rental expenses for the period, for <u>which the payment was made during the said period.</u>	
↓ Changed the methods below	
These taxes are charged to rental expenses for the period, for <u>the portion of such taxes corresponding to said period.</u>	
【Purpose for change】	
Leveling the period profit and loss(⇒stabilizing the dividends).	
There is a bias of summing up amount of property-related taxes that are caused by base as for the amount paid between fiscal periods. We will leveling the period profit and loss by the portion of such taxes corresponding to said period.
