The Investment Corporation appointed Kenedix REIT Management, Inc. as its asset management company. In concert with the Asset Management Company, the Investment Corporation strives to maximize cash distribution to investors by securing stable earnings and sustainable investment growth. To this end, the Investment Corporation adopts a dynamic and flexible investment stance that accurately reflects its environment and market trends, and endeavors to ensure a timely response to each and every opportunity. The Investment Corporation endeavors to develop a diversified investment portfolio named “KENEDIX Selection,” adopting a three-point investment criteria based on property type, area and size.

##### B. Investment Environment and Management Performance

###### (a) Investment Environment

During the fiscal period under review, as the global economy slowed down due to the global financial market crisis, the Japanese economy was in the downward phase of rapid deterioration as evident by the stagnation of domestic demand in addition to foreign demand, sudden deterioration of the employment conditions and corporations facing extreme difficulty in obtaining financing and other conditions.

As for the real estate market, according to the official land prices as of January 1, 2009, an analysis of the year-on-year change in average land prices in Japan for the one year period from January 2008 decreased by 4.7% for commercial land and by 3.2% for residential land, both changing from a year-on-year increase to a decrease for the first time in three years. Furthermore, the average for the three major metropolitan areas, which had been increases for three consecutive years for commercial land and for two consecutive years for residential land until last year, changed to a decrease at a rate exceeding that of regional areas. In the Tokyo Area, the average decreased by 6.1% for commercial land and 4.4% for residential land, both changing from a year-on-year increase in the previous year to a decrease.

###### (b) Management Performance

As of the end of the seventh fiscal period, the Investment Corporation owned 69 properties with a total acquisition price of ¥222,053 million. In the fiscal period under review, the Investment Corporation sold 1 office building (initial acquisition price of ¥704 million) in Tokyo Metropolitan Area and sold 1 office building (initial acquisition price of ¥2,350 million) in Other Regional Areas. As a result, the number of properties owned as of April 30, 2009 stood at 67, with a total acquisition price of ¥218,999 million.

Looking at the portfolio as a whole, 88.5% was comprised of office buildings, 5.6% of central urban retail properties and 5.8% of residential properties on an acquisition price basis. The occupancy ratio as of the end of the seventh fiscal period was 95.6% and as of the end of the eighth fiscal period was 95.7%, reflecting stable investment and asset management.

Make Diversified Acquisitions

As of April 30, 2009, the Investment Corporation owned 67 properties for a total acquisition price of ¥218,999 million with 95.7% occupancy ratio. Supported by this asset base along with the management know-how of mid-sized office building accumulated by the Asset Management Company, the Investment Corporation has acquired properties based on its diversified property acquisition strategy. The Investment Corporation has also expanded the asset size of the portfolio based on a diverse range of property acquisition strategies.

In particular, the Investment Corporation has realized various types of property acquisition, from the acquisition of properties with a low occupancy ratio and lease-up in a short period of time (KDX Nishi-Gotanda Building and KDX Toranomon Building which were acquired during the fourth fiscal period and KDX Jimbocho Building which was acquired during the sixth fiscal period), acquisition of property at the stage when construction of the building was yet to be completed (KDX Nagoya Sakae Building (Note), which land was acquired during the sixth fiscal period) and acquisition of property which Kenedix, Inc. was involved in the development (KDX Harumi Building which was acquired during the seventh fiscal period), etc.

Note: The Investment Corporation has decided the property name of "Sakae 4-chome Office Building (Tentative Name)" to "KDX Nagoya Sakae Building" on June 11, 2009. Same applies below.

Selling of Properties

The Investment Corporation succeeded in selling 2 residential properties during the third fiscal period, 2 residential properties during the fourth fiscal period, 23 residential properties during the sixth fiscal period and 1 office building and 1 central urban retail property during the seventh fiscal period. In the fiscal period under review, the Investment Corporation sold 1 office building (initial acquisition price of ¥704 million) located in Tokyo Metropolitan Area and 1 office building (initial acquisition price of ¥2,350 million) located in Other Regional Areas. Details are as follows.

#### Operation and Management of Existing Properties

The Investment Corporation has appointed the Asset Management Company as its property management company for its entire portfolio (excluding KDX Nagoya Sakae Building). In establishing a single point of contact for all matters relating to property management activities, the Investment Corporation strives to secure consistent policies, specifications and procedures along with ensuring swift and quality service. As of April 30, 2009, the investment portfolio is being managed generally at a high occupancy ratio and the occupancy ratio as of the end of the seventh fiscal period (October 31, 2008) and as of the end of the fiscal period under review was maintained at 95.6% and 95.7%, respectively. The Investment Corporation is satisfied with the quality of property management.

Moreover, the Investment Corporation is continuing efforts to reduce operating costs to leverage scale merits and the know-how cultivated through its management operations. For example, the Investment Corporation has succeeded in cost reductions in a wide range of areas, such as the reduction of building maintenance costs by making a transition to manage properties in groups by building maintenance companies and consolidating businesses, reduction of construction costs by calling for bids when placing orders for construction, reduction in electricity costs by switching electricity providers, reduction of fees as a result of reviewing trust administration, etc. Furthermore, after significantly reducing our construction budget, the Investment Corporation has successfully reduced capital expenditures and repairs, maintenance and renovation expenses.

Regarding new tenants, the Investment Corporation is striving to increase tenant satisfaction in terms of hardware (buildings and facilities) and software (operating and management services), such as through the implementation of appropriate construction for repairs and maintenance, change of building maintenance company based on CS surveys, providing disaster prevention information and other measures.

### C. Capital Acquisition

#### (a) Overview of Refinance

## (b) Overview of Posting Collateral

The Investment Corporation aims to secure stable financial management by such measures as diversifying its interest-bearing debt maturities to reduce refinancing risks and maintaining the ratio of its long-term borrowings at or over a certain level.

On the other hand, amid the global credit crunch trend, concerns have arisen within the J-REIT market in Japan regarding fund procurement. The Investment Corporations' borrowing periods have tended to be shortened, and the ratio of long-term borrowings have been lowered. The Investment Corporation has concluded agreements on April 27, 2009 to post fixed mortgages for real estate and to post fixed pledges for trust beneficiary interests in real estate for a certain portion of the assets that are owned by the Investment Corporation, with all lenders involved in the Investment Corporation's borrowings as collateral right holders, since posting collateral for part of its assets will be beneficial for conducting smooth fund procurement. In addition, the Investment Corporation conducted provisional registrations for the concerned fixed mortgages.

Moreover, the comparisons of the borrowing periods before posting collateral and after posting collateral from the same lender during the fiscal period under review (excluding borrowings based on commitment line agreements) are as follows.

Furthermore, the use of funds procured through borrowings after posting collateral is not necessarily limited to the repayment of the borrowings before posting collateral. (Note)

Lender	Before Posting Collateral		After Posting Collateral	
	Borrowing Period	Classification	Borrowing Period	Classification
The Bank of Tokyo-Mitsubishi UFJ, Ltd.	1.5 months (Note)	Series 37	6 months (Note) 1 year	Series 38-A, B
The Chuo Mitsui Trust and Banking Co., Ltd.	1 year	Series 35	2 years	Series 38-C
Resona Bank, Ltd.	1 year	Series 34	2 years	Series 38-C
Aozora Bank, Ltd.	6 months (Note) 1 year (Note)	Series 36-A, 34	2.5 years (Note) 3 years	Series 38-D, E

Note: Out of the borrowings after posting collateral, the following are borrowings whose use of funds was the repayment of borrowings before posting collateral during the fiscal period under review.

- Series 38-A borrowed from The Bank of Tokyo-Mitsubishi UFJ, Ltd. was applied toward the repayment of Series 37.
- Series 38-D borrowed from Aozora Bank, Ltd. was applied toward the repayment of Series 34 and Series 36-A.

The assets that were pledged as collateral on April 27, 2009, are the following real estate and trust beneficiary interest in real estate, as well as other contingent assets (right to claim fire insurance proceeds, etc.).

(c) Diversification of Debt Maturities

The Investment Corporation will continue to strive to reduce refinancing risk by diversifying repayment dates for its interest-bearing debt. Moreover, the total balance of interest-bearing debt as of the end of the eighth fiscal period (April 30, 2009) maturing in each fiscal period is as follows.

Balance of Interest-Bearing Debt Maturing in Each Fiscal Period of the Investment Corporation

(Reference) Balance of Interest-Bearing Debt Maturing in Each Half-Year Period ending on March 31 and September 30

Note: 1H is from April 1 to September 30, 2H is from October 1 to March 31 of the following year and are not identical with the fiscal period of the Investment Corporation (e.g. 2009, 1H is from April 1, 2009 to September 30, 2009)

(d) Status of Credit Rating

The Investment Corporation acquired a credit rating from Moody’s Investors Services, Inc. in February 2006, and credit rating from Japan Credit Rating Agency, Ltd. in December 2006. Details of the credit ratings as of April 30, 2009 are as follows.

Credit Rating Agency	Details of the Ratings	
Moody’s Investors Service	Issuer Credit Rating	Ba1
	Senior Unsecured Long-Term Debt Rating	
	Outlook	Negative
Japan Credit Rating Agency, Ltd.	Senior Debts	A+
	Outlook	Negative

In addition, the changes of the credit rating from Moody’s Investors Service, Inc. (“Moody’s”) during the fiscal period under review are as follows.

- On January 15, 2009, there was an announcement of the rating change, A3 (Stable) to Baa1 (The rating remains under review for possible downgrade.), by Moody’s for the following reasons. “The downgrade, and the fact that the rating remains under review for possible further downgrade, reflects Moody’s concern that Kenedix

Realty Investment Corporation's financial flexibility will be stressed due to the current financial turmoil and the concomitant credit crunch in the real estate financial market."

- On March 6, 2009, there was an announcement of rating change, Baa1 (The rating remains under review for possible downgrade.) to Baa2 (The rating remains under review for possible downgrade.), by Moody's for the following reasons. "The downgrade reflects that, should Kenedix Realty Investment Corporation convert its portfolio properties into collateral for its loans, its unsecured debt may become subordinated to the loans."
- On April 21, 2009, there was an announcement of the rating change, Baa2 (The rating remains under review for possible downgrade.) to Ba1 (Negative) by Moody's, "the downgrade reflects Moody's concern that Kenedix Realty Investment Corporation's financial flexibility will be stressed due to the credit crunch plaguing the real estate market. The ratings also take into account that Kenedix Realty Investment Corporation's rated bonds are subordinated to its loans."

Furthermore, credit rating reviews from Japan Credit Rating Agency, Ltd. ("JCR") during the fiscal period under review were as follows.

- On February 6, 2009, there was an announcement by JCR to affirm the A+ rating and to change the rating outlook from Stable to Negative.
- On April 22, 2009, there was an announcement by JCR to affirm the A+ rating and Negative rating outlook.

## (2) Outlook

### A. Investment Environment

Ever since the bankruptcies of major financial institutions occurred in the U.S. in September 2008, the financial crisis showed signs of worsening and prolonging and has started to spread around the world. The slowdown of the Japanese economy is rapidly increasing in severity due to the large drop in share prices and sharp yen appreciation which have led to a further cooling down in business and consumer confidence. Furthermore, there are concerns that the economic slowdown will continue for an extended period of time due to large-scale employment adjustments, evidence of knock-on effects from the domestic financial side to the real economy, a risk that the circumstances surrounding the global economy will worsen further and other factors.

As for the real estate market, official land prices were announced in March 2009 and the upward trend that had lasted for three years until last year changed to a downward trend (commercial land for the three major metropolitan areas decreased by 5.4%). Reasons for this change are the economic slowdown and rise of vacancy rates of office buildings, etc. in correlation with the slowdown, increase of inventory as a result of a poor sales of condominiums, etc., and effects of the downturn of the real estate market due to decreasing demand, etc. in light of the decline in real estate investment and loan for real estate.

In the office building leasing market, it is becoming increasingly clear that the trend is placing priority on low rents one bears over office building location or facility standards as a result of the effects of the economic slowdown. For the three major metropolitan areas, the trend to shift from city centers where rent levels are high to surrounding areas and a shift from expensive large-sized office buildings to mid-sized office buildings that are cheaper in comparison was seen. In these areas, it seems that the two trends of an increase in vacancy rates and downward adjustments of rents will continue to clash for the near term.

### B. Future Management Policies

The Investment Corporation adopts the basic policy of conducting dynamic and flexible investment that accurately reflects the trends and ensures a timely response, and developing a diversified investment portfolio focused on a three-point investment criterion based on property type, area and size. From this standpoint and in light of the investment environment described above (the Japanese economy, land price trends, leasing market for office buildings, etc.), the Investment Corporation creates an existing property management strategy, property investment strategy and financial strategy in a dynamic and flexible manner as set forth below.

#### (a) Existing property management strategy

Taking into consideration economic and real estate market trends, the Investment Corporation adopts a tenant-oriented approach to its leasing activities with aims of ensuring a timely and flexible responses as well as optimal tenant satisfaction. Accordingly, the Investment Corporation will aim to maintain / increase of the cash flow by offering office environment with high tenant satisfaction. Based on the aforementioned, the Asset Management Company undertakes property management activities as follows:

- Identify satisfaction through use of tenant surveys
- Reduction of Construction Budget
- Measures to Maintain and Raise Competitiveness of Properties
- Leasing management according to the market environment
- Careful control of management and operating costs by taking advantage of portfolio size

#### Identify tenant satisfaction through use of tenant surveys

The Investment Corporation recognizes each tenant as a key customer and strives to enhance customer satisfaction and raise the competitiveness of its properties as the means to maintain and increase earnings.

The Investment Corporation conducted a customer satisfaction survey (“CS Survey”) through J.D. Power Asia Pacific, Inc., an internationally recognized company that engages in customer satisfaction evaluation, to better understand the needs of its tenants and take steps to respond to their preferences. As a part of this survey the administration officers of each tenant and tenant employees were asked to respond to many questions concerning buildings and facilities as well as operating and management services. The Investment Corporation conducted the first CS Survey, which covered 20 of its properties, during the second fiscal period, and the second CS Survey, which covered 44 of its properties, during the fifth fiscal period.

Plans are in place to conduct a third CS Survey which is to cover 58 properties during the fiscal period ending October 31, 2009.

By continuously conducting such surveys, the Investment Corporation will aim to increase customer satisfaction, generate improvements in rent levels and asset values, promote enhanced earnings and aim to maintain and increase cash flow.

### Reduction of the Construction Budget

Backed by the favorable leasing market for office buildings in the past, the Investment Corporation had thus far been proactively conducting construction to enhance value under the objective of maintaining and improving rent levels and asset values. However, the budget for major construction to enhance value has been reduced starting from the fiscal period under review (fiscal period ended April 30, 2009), due to having completed the bulk of construction measures at many of its portfolio properties. For the ninth fiscal period and onwards, the Investment Corporation continues to conduct management under the policy of keeping construction expenditures to the scope necessary.

Moreover, the following are changes in the actual costs and budgets of the repairs, maintenance and renovation plans (construction budget) and changes in depreciation expenses.

### Measures to Maintain and Raise Competitiveness of Properties

The Investment Corporation aims to provide attractive mid-sized office buildings in order to enhance portfolio value and rental revenues. The Investment Corporation believes that the quality of mid-sized office buildings in Japan vary considerably depending on the nature of the owner. For example, a building owned by an individual or small company that owns only one or a few buildings may not have the resources to provide high-quality maintenance. Furthermore, when a building is owned by a large company, property management is often dictated by that company's priorities and does not necessarily correspond to tenant needs or satisfaction.

The Investment Corporation aims to provide certain uniform standards in regards to specifications and services that tend to differ by property and will implement measures to enhance the value by carrying out property management based on these unified standards. Furthermore, it aims to maintain the rent levels and asset values by implementing appropriate construction for repairs and maintenance.

### Leasing management according to the market environment

The characteristics of mid-sized office buildings, which are the primary target of the Investment Corporation's investment, are that many of the tenants generally tend to be small- and medium-sized enterprises and turnover ratios are relatively high. Therefore, in the leasing aspect, the Investment Corporation implements leasing activities in a timely and flexible manner by adopting the basic policy of endeavoring to maximize revenues for the medium- to long-term through maintaining occupancy ratios, while taking into account economic and real estate market trends.

Concerning the solicitation of new tenants, the Investment Corporation strives to shorten the period of vacancy and boost the occupancy ratio by implementing dynamic and flexible leasing activities through the sharing of information closely with leading brokers, holding of previews, marketing directly to corporations, utilizing guarantee companies and other measures.

On the other hand, the Investment Corporation will endeavor to conduct property management so as to increase customer satisfaction by

adopting the basic policy of maintaining current conditions in serving existing tenants.

Careful control of management and operating costs by taking advantage of portfolio size

The Investment Corporation utilizes the scale merits of owning many properties and the negotiating strength acquired through its past management performance to reduce building maintenance costs. The Investment Corporation has managed to reduce building maintenance expenses for office buildings, trust fees and electricity costs at some properties by reviewing the content of building maintenance. In addition, the Investment Corporation has managed to improve the efficiency of content of maintenance and also managed to reduce costs by consolidating the building maintenance company for office buildings in Tokyo.

The Investment Corporation will continue to carefully control management and operating costs by periodically reviewing its property management standards to ensure that they remain relevant and appropriate for each property.

The Investment Corporation has appointed the Asset Management Company as its sole property management company for the entire portfolio (excluding KDX Nagoya Sakae Building) as of the end of the eighth fiscal period. In establishing a single point of contact for all matters relating to property management activities, the Investment Corporation strives to secure consistent policies, specifications and procedures along with ensuring swift and quality service.

(b) New Property Investment Strategy and Sales Policy

The Investment Corporation has thus far been acquiring investment properties by considering (1) the weighted average cost of capital, which is based on the (2) level of return on distributions, which is calculated from the investment unit price and distributions per unit and (3) debt financing costs and interest-bearing debt ratio. Hereafter, in light of the recent uncertain market environment and other factors, the Investment Corporation will no longer aim to increase asset and for the time being.

Accordingly, concerning central urban retail properties and residential properties, the Investment Corporation will not only refrain from conducting new investments, but will also place such properties on the top of the list of properties to sell while taking into consideration the market environment, asset size and other factors. In addition, in light of the area and size of individual properties and depending on the sales terms and conditions, the Investment Corporation will not exclude office buildings either from the list of properties that could be sold. Moreover, the Investment Corporation will not exclude assets whose cash flow show no signs of improvement for the short-term from the list of properties that could be sold.

The Investment Corporation seeks to continue improving the quality of its portfolio in terms of location, size and type of properties, through various measures including replacement of assets, and will continue to aim to build a strong portfolio focusing on mid-sized office buildings.

(c) Financial Strategy

The Investment Corporation will continue to pursue debt financing on an unsecured and unguaranteed basis and as well as make arrangements to ensure fixed interest rate debt in line with interest rate trends and other considerations. In addition, the Investment Corporation will seek to diversify its debt repayment period to reduce refinancing risk. Furthermore, the Investment Corporation will pursue stable financial management through such measures as continuing to maintain long-term debt ratios above prudent levels. Furthermore, through prepayment of borrowings (mainly borrowings whose repayment dates will arrive within 1 year) by refinancing them as long-term borrowings and other measures, the Investment Corporation will aim to extend the average life of its debts.

The Investment Corporation will continue to maintain its conservative leverage policy by taking such measures as keeping the ratio of interest-bearing debt to total assets at a prudent level. Furthermore, the Investment Corporation may choose to decrease its interest-bearing debt ratio through the sale of property, etc

Moreover, the Investment Corporation will undertake stable fund procurement based on existing favorable relations with financial institutions, especially mega-banks, trust banks and Development Bank of Japan, Inc., as well as aim for more conservative financial management than ever before by increasing its cash position and other means.

(d) Information Disclosure

Consistent with its basic information disclosure policy, the Investment Corporation proactively engages in IR activities with the aim of promptly providing a wide range of relevant information to investors. In specific terms, the Investment Corporation provides information through the Timely Disclosure Network System (TDnet), which is a system operated by the Tokyo Stock Exchange, as well as press releases and its Web site (URL: <http://www.kdx-reit.com/eng/>).

**(3) Important Subsequent Events**

Notes:

1. Acquisition price is the purchase price for trust beneficiary interests or properties acquired by the Investment Corporation (excluding acquisition costs,

property tax, city-planning tax, and consumption tax, etc., rounded down to the nearest million yen.)

2. Figures of less than 1 million are rounded down from the amounts on the balance sheet.
3. Appraisal values (end of the eighth fiscal period) are based on the asset valuation method and standards outlined in the Investment Corporation's Articles of Incorporation and regulations formulated by the Investment Trusts Association, Japan. Appraisal values are drawn from valuation reports prepared by the Japan Real Estate Institute, Daiwa Real Estate Appraisal Corporation, and Nippon Tochi-Tatemono Limited.
4. The appraisers for the properties are Japan Real Estate Institute (A), Daiwa Real Estate Appraisal Corporation (B) and Nippon Tochi-Tatemono Limited (C).
5. Figures are the acquisition price of each asset as a percentage of the total acquisition prices for the portfolio rounded down to the nearest first decimal place.
6. Notes for KDX Nagoya Sakae Building are as follows.  
 "Acquisition Price", "Amount on the Balance Sheet", "Appraisal Value at the end of Eighth Fiscal Period": The values concerning land are shown.  
 The value of "Direct Capitalization Method" and "Discounted Cash Flow Method" are shown as "--" since the building had not yet been acquired as of April 30, 2009 when the valuation report was prepared.
7. The survey value of KDX Nagoya Sakae Building including the building was ¥6,010 million as of April 30, 2009. Details of the survey value are as follows.

Survey Value	Direct Capitalization Method		Discounted Cash Flow Method		
	Value	Overall Capitalization Rate (%)	Value	Discount Rate (%)	Terminal Capitalization Rate (%)
6,010	6,160	5.0%	5,950	4.8%	5.2%

The Investment Corporation plans to acquire the building portion, acquisition price of ¥3,550 million on July 1, 2009.

(For the land portion, the Investment Corporation has acquired on April 25, 2008 for ¥4,000 millions.)

8. The value calculated using the "Direct Capitalization Method" and the value calculated using the "Discount Cash Flow Method" for the KDX Nagoya Sakae Building are not included in either the subtotal for the office buildings or the total for the entire property portfolio, 58 and 67, respectively. Accordingly, the subtotal and total are for 57 office buildings and 66 properties, respectively.

## Notes:

1. Site area data is based on figures recorded in the land register and includes relevant figures in the case of leasehold land. Data may not match with the actual current status. Property that includes land leasehold encompass the site area applicable to leasehold portions. Compartmentalized building ownership includes the site area relating to site rights and the total floor area for the entire building, structure and number of floors.
2. Usage is based on data recorded in the land register. All types of use are reported in the case of multi-purpose application.
3. Total floor space is based on figures recorded in the land register and does not include related structures. The total floor area for the entire buildings is reported for compartmentalized ownership.
4. Type of structure data is based on data recorded in the land register. The following abbreviations are used to report data relating to structure and the number of floors:  
SRC: Steel-Reinforced Concrete; RC: Reinforced Concrete; S: Steel Frame; B: Below Ground Level; F: Above Ground Level.  
For example: B2F9: Two floors below ground level and nine floors above ground level.
5. Completion date is the date of construction completion recorded in the land register. Average age subtotal and total data is calculated using the weighted-average based on acquisition prices as of April 30, 2009, and is rounded down to the nearest first decimal place. KDX Nagoya Sakae Building is not included in the weighted-average age.
6. Notes for the KDX Nagoya Sakae Building are as follows.  
“Total Floor Area”, “Type of Structure”, “Completion Date”: The figure is entered based on what is written in the inspection certificate pursuant to the provisions of Article 6-1 of the Building Standards Law, as the building has not been completed or registered. The current design content may be changed in the future in accordance with the status of construction and other factors.  
“PML Percentage”: The figure is based on the present design and specifications as of April 2008.
7. Probable Maximum Loss (PML) data is based on a survey provided by Sompo Japan Risk Management, Inc. as of April 2009. The Portfolio PML is the data based on 66 properties (excluding KDX Nagoya Sakae Building.)

Notes:

- Total leasable floor area refers to the leasable floor area for each Property including the building (aggregate total of the leasable floor area of each building in the case of more than one building), excluding land (including land for one-story parking) identified in lease agreements or construction completion plans.

2. Total leased floor area refers to the area identified in lease agreements with end tenants or sub-lease agreements.
3. The total number of leasable residential units and the number of leased residential units refers to the portion of the building used for residential purposes.
4. The total number of leased residential units refers to the number of residential units among leasable residential units for which lease agreements with end tenants or sub-lease agreements are signed.
5. The total number of tenants refers to the actual number of end tenants for each property. However, for Residence Charmante Tsukishima, please refer to Note 10, and for Gradito Kawaguchi, please refer to Note 11.
6. The occupancy ratio is calculated by dividing leased floor area by total leasable floor area. Figures are rounded to the nearest first decimal place.
7. Total rental and other operating revenues cover all income, including that from rental revenue, common charges, and parking space rental revenues, rounded to the nearest one thousand yen. Total real estate business rental revenues refers to the total amount of revenues generated during the fiscal period under review from real estate rental operations including leasing revenues, common charges and parking revenues rounded down to the nearest thousand yen.
8. Guarantee and security deposits refers to the balance of security deposits held (including net security deposits in the case of discount) and the balance of guarantee deposits rounded down to the nearest thousand yen.
9. A pass-through type master lease contract based on partially fixed rent (from June 30, 2009) was concluded between the trustee of the property and Kenedix, Inc. placing Kenedix, Inc. as the master lease company. However, with the lease-up of said property, the agreement has been terminated by consent as of February 27, 2009.
10. Because we have concluded a rental guarantee (fixed-term lease: until January 30, 2011) fixed-term building lease contract (term of contract: to January 30, 2029) with Sekiwa Real Estate, Ltd., a master lessor, the total number of tenants is indicated 1.
11. Because the master lessor and Haseko Livenet Inc. have concluded a rental guarantee (fixed-term lease: until March 31, 2010) building lease contract for dwelling units (excluding first-floor shops), the total number of tenants is indicated as 2.
12. The number presented does not reflect the adjustment for end-tenants who are overlapping in multiple properties.

Notes:

- The average interest rate is the weighted-average interest rate for the fiscal period. The Investment Corporation entered into interest-rate swap transactions with the aim of minimizing the risk of future increase in interest rates. The effect of interest-rate swap transactions has been incorporated into calculations for the weighted-average interest rate.
- Funds procured through borrowings were used to acquire real estate or trust beneficiary interests in real estate and to repay borrowings.
- The Investment Corporation undertook prepayment on April 30, 2009.
- Borrowings listed in the current portion of long-term payable were listed in long-term payable in the previous fiscal period.
- Repayment Method: August 31, 2009 to February 29, 2012: repayment of ¥10 million every 6 months, and February 29, 2012: repayment of ¥450 million
- Repayment Method: August 31, 2009 to August 31, 2012: repayment of ¥20 million every 6 months, and August 31, 2012: repayment of ¥880 million
