Achieved lease-up (Occupancy ratio)

* KDX fixed rent ratio: The ratio of the sum of floor area covered by fixed rent contracts concluded on June 30 2008 and the floor area of end tenants (2F-6F) versus the building's total floor area.

■ Fixed rents for space not occupied by end tenants (partial fixed rent contract outline: a partial fixed rent master lease contract was concluded with the seller Kenedix, Inc. (KDX) at the time of acquisition)

Office portion ¥18,000/month per tsubo (7F-11F)

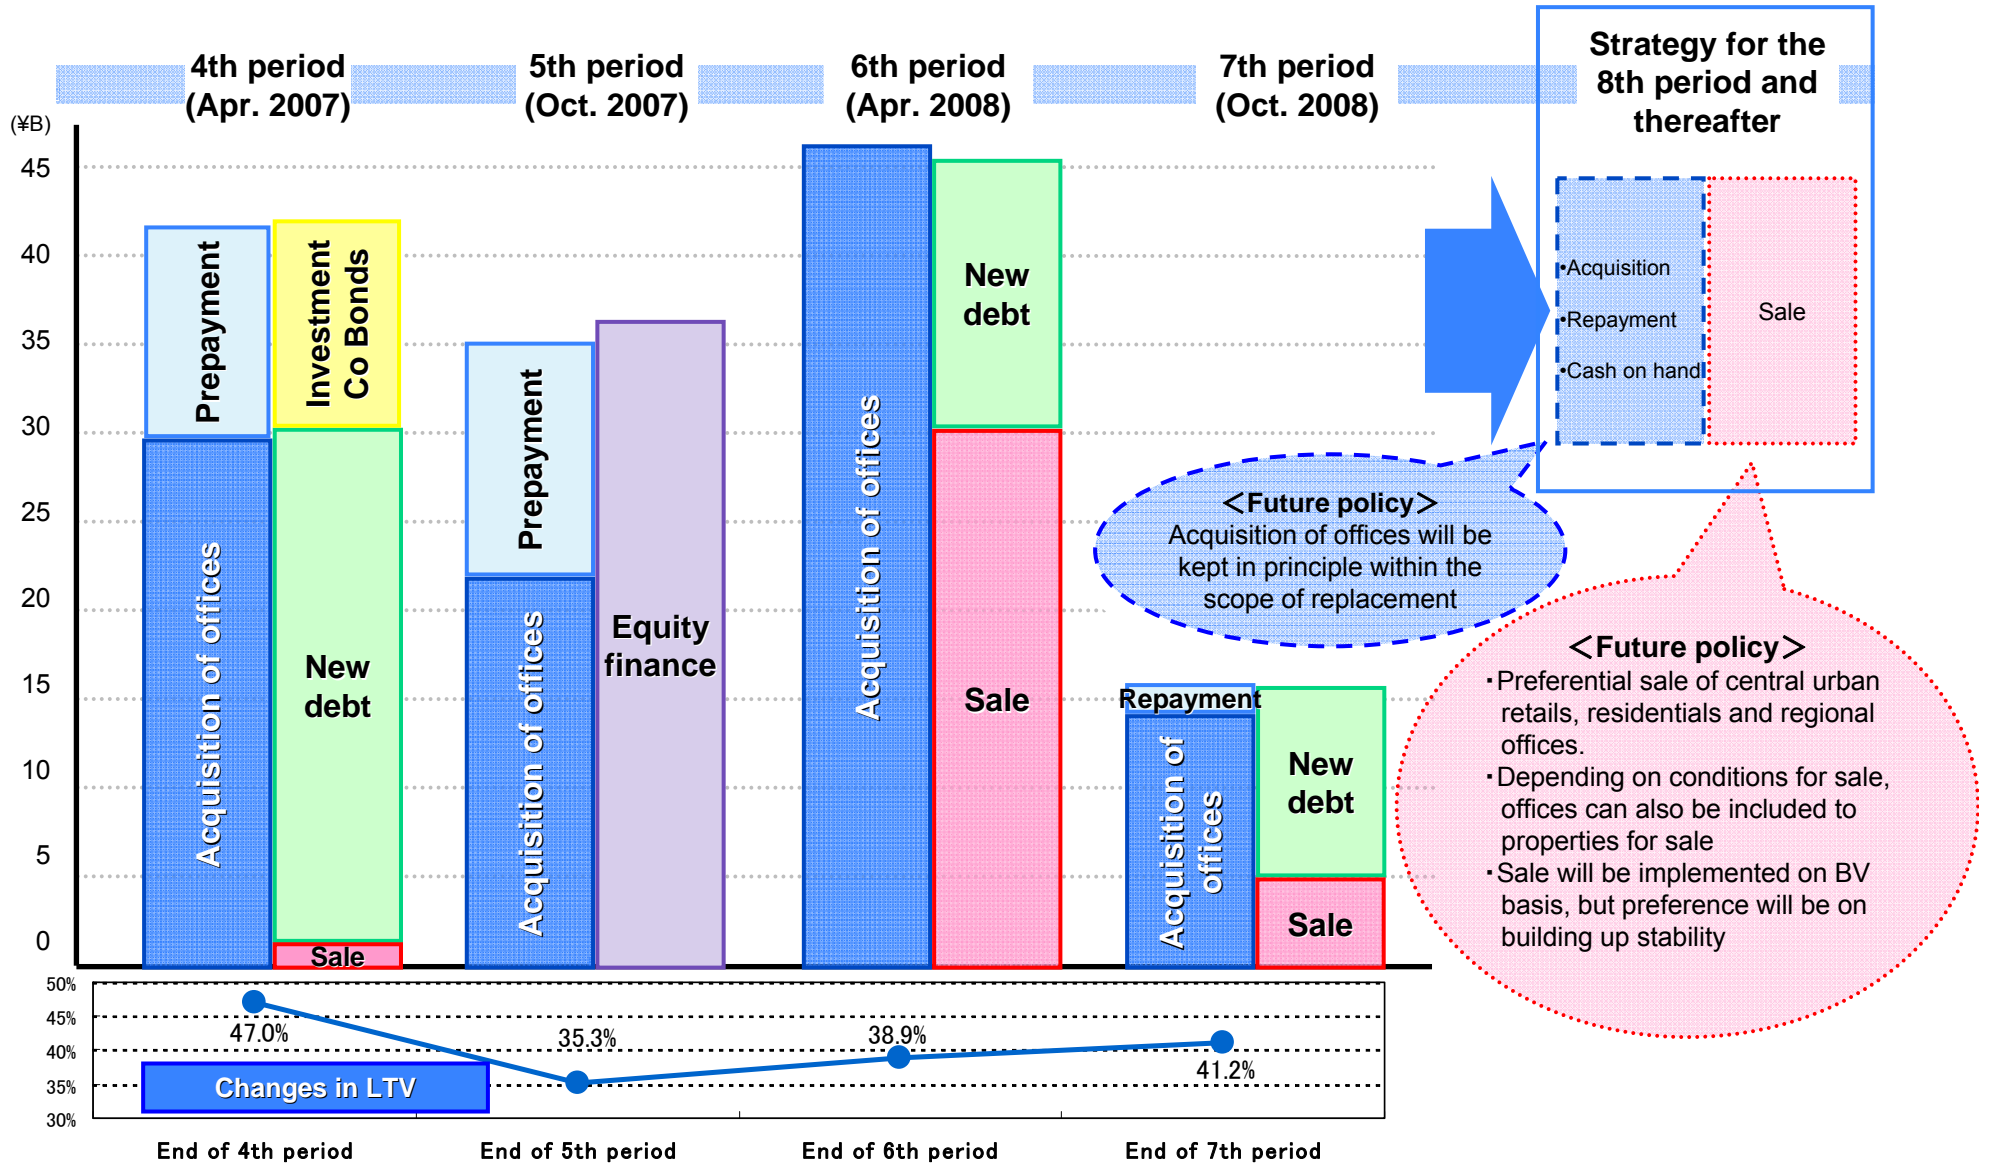

Retail portion ¥15,000/month per tsubo (1F)

Inception date 2008/7 ~ Office: 6 floor portion
 2008/9 ~ Office: 8 floor portion
 2009/1 ~ Office: 10 floor portion
 2009/2 ~ Office: 10 floor portion and Retail portion

All end tenant contract rent levels were above KDX's fixed rents

Flexible management according to market environment

Acquisition of offices and sale of properties (Residentials, central urban retail, regional office) and funding achieved

SECTION 3

Management of Existing Properties

Management of existing properties — rent level of new contracts for office buildings

Track record for increasing the rent level for new contracts

Changes in average rent increase (rents for new tenants)

Average change (including rent reduction):

3rd period: 7.0% 5th period: 11.4% 7th period: 3.9%
 4th period: 14.0% 6th period: 16.7%

(Note) The above figures represent the simple average variances in rents for all new contracts

Breakdown of changes in 7th period (Rents of new contracts)

Average change by region (Simple average based on number of contracts):

Central Tokyo : 13.5% (rent increase 8, no change in rent 0)
 Other Tokyo metropolitan area : 5.8% (rent increase 5, rent reduction 2)
 Other Regional areas : -5.1% (Rent increase 3, rent reduction 7)

(Note) The above increase/change are comparisons of new rents with the average rent of relevant buildings (office buildings that are more than 2F tall)

<Future policy>
 Considering market environment and future trends, we will focus on keeping vacancy period short and improving occupancy ratio by complying flexibly to the requests of prospective tenants

Changes in tenant turnover ratio (actual and estimated: annualized)

Average 8.4% (annualized basis)

Main reasons for moving out

	5th period	6th period	7th period	8th period (E)
Expand office space	4	2	3	3
Reduce office space	17	17	23	32
Other/Unknown	5	11	5	3

Note: Other/Unknown includes 2 move outs following negotiations on rent increase at contract renewal

Average vacancy period (Down time)

	6th period	7th period	Occupancy at end of 7th period
Central Tokyo	1.0 months	4.2 months	95.9%
Other Tokyo metropolitan area	3.6 months	4.2 months	96.9%
Other regional areas	10.6 months	10.2 months	94.1%

Note: Average (of each floor) based on number of contracts. Floors covered by the survey are the followings: Offices on 2F or above high that were
 • vacant at start of period, but acquired new tenants during the relevant period
 • continuously vacant from start to end of period
 • cancelled during but managed to acquire new tenants during the relevant period

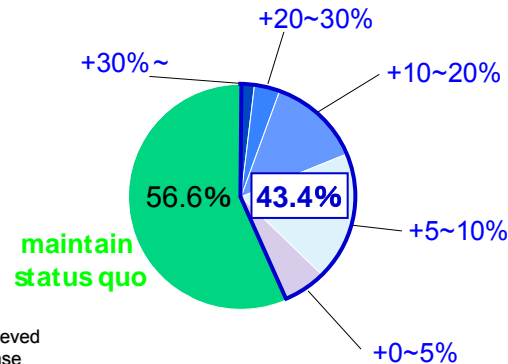

Management of existing properties — rent level of renewed contracts for office buildings

Track record for increasing contract renewal

Ratio of rents increased at contract renewal and changes in average rent increase

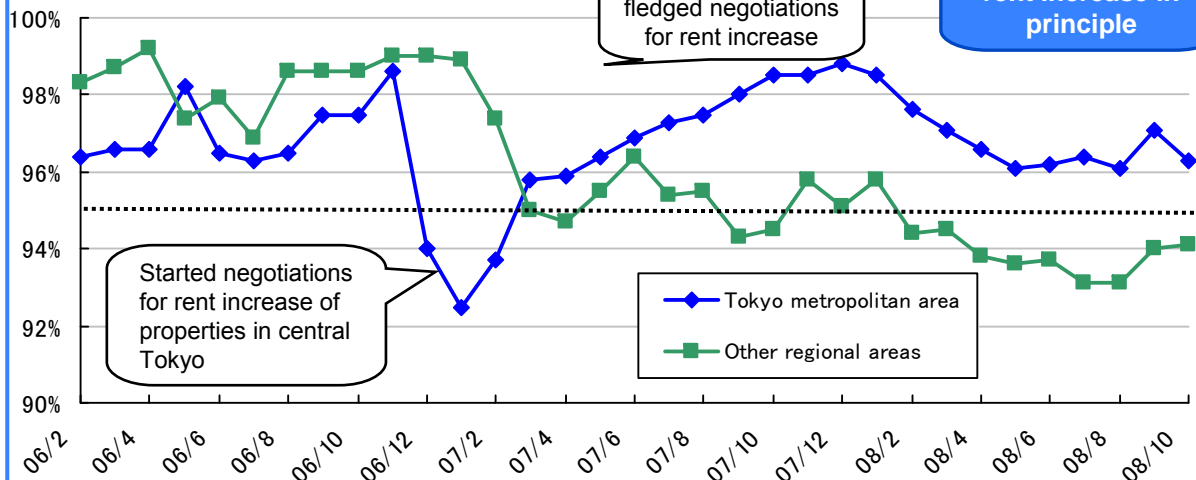

Distribution of volatility in the 7th period (Rents for renewed contracts)

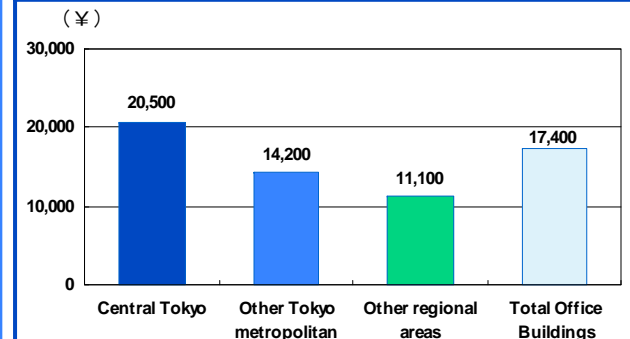

Note The ratio of rent increase cases above reflect all upward rent revisions achieved through negotiations irrespective of renewal terms. The ratios of rent increase cases are based on leased floor area, whereas the average rent increases are based on rents

<Future policy>
In principle, we do not negotiate for rent increases with existing tenants, and will focus on maintaining high occupancy ratios

Changes in occupancy ratios for office buildings (by region)

Average unit rent for office buildings (End of 7th period)

Note: Amounts show the weighted average of the sum of average rent based on gross floor area divided by the number of properties in each area. Survey covers offices on 2F or above

Management of existing properties— stability of mid-sized office buildings (tenant diversification)

Status of end-tenants for office buildings (End of 7th period)

# of end-tenants (# of properties)	630 (59)
Ratio of largest end-tenant	2.1%
Ratio of Top 3 end-tenants	5.4%

(Note) The above ratio shows the ratio of top end-tenants within the entire portfolio (based on leased area)

Management of existing properties— Consolidate BMs / construction / cost reduction

Management effect by the scale of portfolio investing primarily in mid-sized office buildings

Consolidation of BMs (maintenance companies) for management of properties by group

Divide Tokyo into 3 areas and consolidate BMs for each area

Area A (East) 11 properties: 9 BMs → A Co
 Area B (South) 7 properties: 5 BMs → B Co
 Area C (West) 7 properties: 7 BMs → C Co

consolidated to 3 companies

Increased management quality, service levels and business efficiency

Z08BB第401号

Depreciation, Changes in budgets and actual costs for construction

Notes:

1 Construction budget shows budgeted costs for initial construction works under the Property Management Plan

2 Actual construction costs shows construction costs disclosed (Capex + repairs costs)

Reduce construction cost through bid

■ Ongoing bid for air-conditioning facilities

- # of successful bids 5th period: 4 properties
cost reduction by ¥190M (reduction rate 24.4%)
- # of successful bids 6th period: 5 properties
cost reduction by ¥174M (reduction rate 39.3%)
- # of successful bids 7th period: 5 properties
cost reduction by ¥132M (reduction rate 31.6%)
- # of bids 8th period: 2 properties

Implemented works for 14 properties
 → increased efficiency of air conditioning facilities helps to reduce energy consumption
 → reduce CO₂

<Future policy>

Reduce construction budgets for CS or value up (including installation of air conditioners), as such works were already completed for many of our portfolio properties

SECTION 4

Financial Strategies

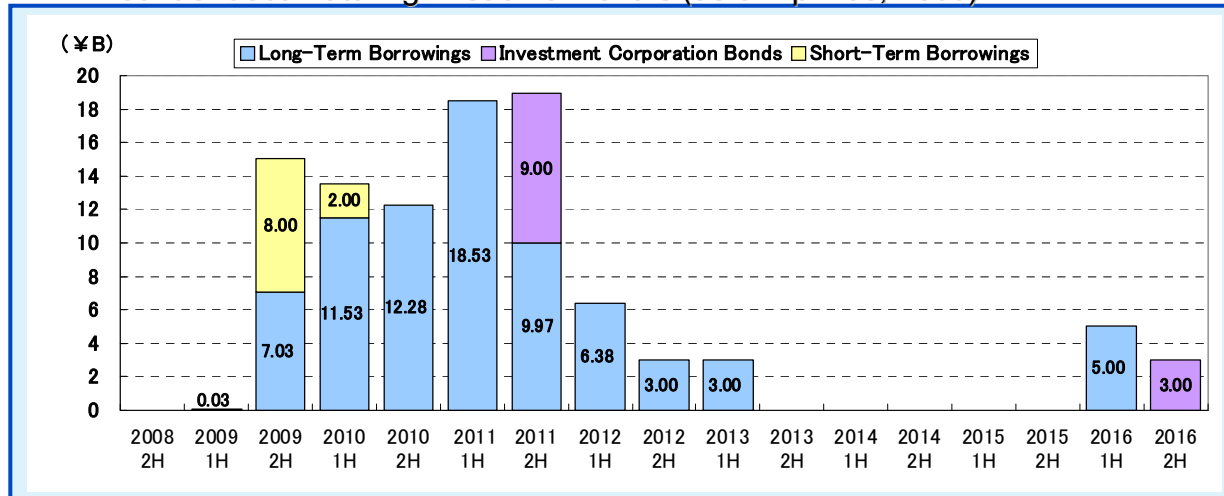

Stable financial management— Diversified maturities and Fixed debt interest rates

Diversification of debt maturities

Debt financing with an emphasis on diversifying repayments

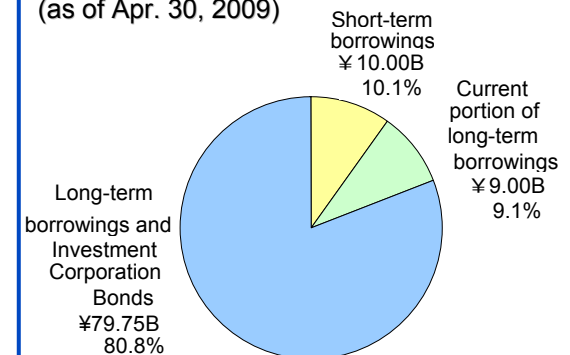

Amount of debt maturing in each 6 months (as of April 30, 2009)

Notes:

- Shows debt amounts that mature in each period
- 1H is from Apr. 1 to Sep. 30 and 2H from Oct. 1 to Mar. 31 of the following year and not identical with the fiscal periods of the investment corporation (e.g. 2008 2H is from Oct. 1, 2008 to Mar. 31, 2009)

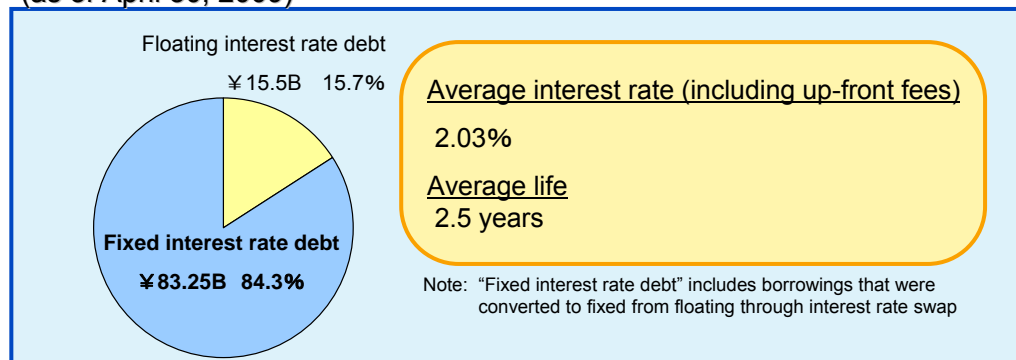

Outstanding amount of interest-bearing debts by remaining life (as of Apr. 30, 2009)

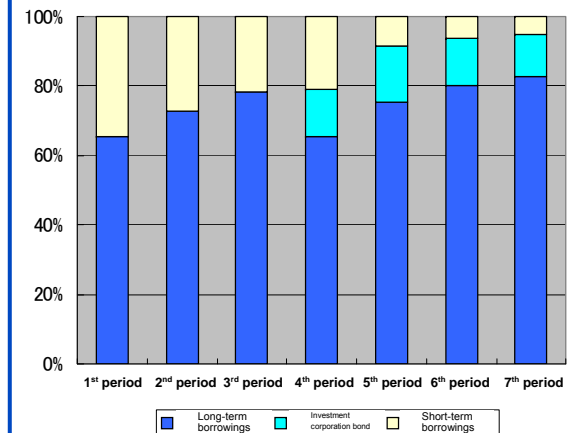

Fixed debt interest rates

Conservative management centered on borrowings at a fixed interest rates

Proportion of debt at fixed interest rate* vs. floating interest rate (as of April 30, 2009)

Changes in debt ratio by type of debt

Stable financial management— focus on maintaining conservative LTV

Changes in LTV

Note: LTV=Interest-bearing debt at end of period ÷ Total assets

<Future policy>

We will maintain conservative LTV. We will also focus on conservative financial management through conservative leverage policy and build-up our cash position

Summary of covenants on borrowings

“Financial covenant”

If in any fiscal period

- ① LTV exceeds a certain level or
- ② DSCR falls below a certain level

→ failure to comply with the above for 2 consecutive periods will result in attachment of assets

•LTV=total liabilities ÷ total assets

(the difference between the appraisal value of properties at end of each period and the BV will be reflected in the value of total assets (Added or subtracted as the case may be))

•DSCR=(Operating income+Depreciation) ÷ interests paid

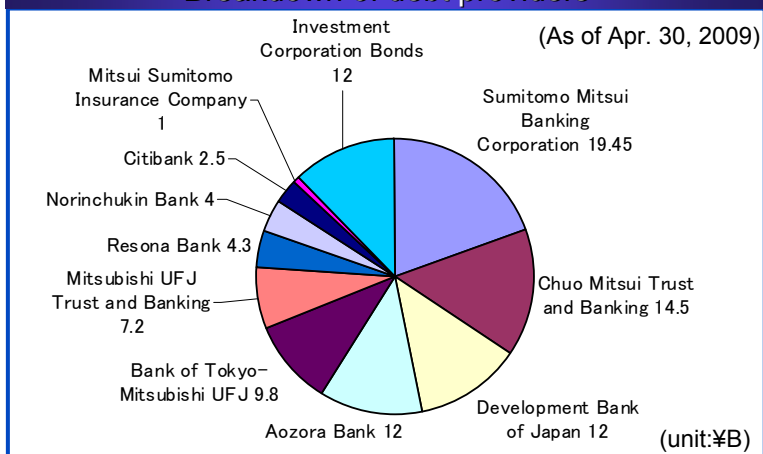

(Payment of principal with interest excluding lump-sum repayment of principal)

Borrowings in the 7th period and property trading

Stable financial management—Diversification of debt providers

Breakdown of debt providers

Continue focusing on stable financing by maintaining positive relationship with financial institutions, especially mega-banks and trust banks
